

MAP-PRO GAS CYLINDER

1811120 (single cylinder), 1811124 (4 pack)

SPECIFICATIONS:

- Cylinder capacity: 400g
- Flame temp in air: 1982°C
- Thread connection: CGA600
- Chemical make-up: 99.5-100% Propylene, 0-0.5% Propane
- Brand: Bernzomatic
- Country of origin: USA

The SDS is available on our website for AUS + NZ

<https://www.bromicplumbing.com/product/soldering-brazing/gas-cylinders-disposable/bernzomatic-400g-map-pro-cylinder/>

FEATURES:

- Slim, Lightweight, Portable
- Higher heat characteristics than propane
- Constructed from durable steel
- 1 year warranty
- Gross weight (including cylinder) = approx. 820g.

REGULATOR TO SUIT:

1811171-1 (used in the Bromic Oxyset)

USES:

Soldering and brazing, medium to heavy. Soldering large copper pipes, brazing and heat-treating.

COMPATIBLE PRODUCTS/ TORCHES:

- TS4000TK: Torch Kit Swirl Flame Trigger Start Map-Pro
- TS8000TK: Torch Kit Ultra Swirl Flame Trigger Start Map-Pro
- TS8000BT: Bernzomatic Torch Head Sure Fire Trigger
- TS8000T2K: Torch Kit Ultra Swirl Flame Torch+2 Map-Pro Cyl
- 1811167-2: Oxyset Mobile Brazing System
- 1811340: MAP-Pro Extention Hose SS 6mm CGA600 1500mm
- 1811622: Bromic Swivel Map-Pro Torch, clamshell and Artwork
- 1811640: Torch Bromic Swivel Map-Pro
- 1811641: Torch Bromic Map-Pro Hose

FAQS

How to dispose of the empty cylinder? Look up your “local hazardous waste facility” to organise when and where to drop off.

Can I refill it? No, the cylinders are disposable and shall not be refilled.

Are the cylinders resealable? The cylinders are pin activated, so when the regulator is removed, the gas will not leak.

Does the gas/cylinder expire? No, it doesn't expire. The gas inside will stay pure until it is used up. The gas cylinder cannot be refilled though.
