

Features

Economic & efficient automatic changeover valve to enable the use of stored rainwater in household applications such as toilets, laundry, and gardens. Valve smoothly diverts to mains water supply when rainwater storage tank is empty. Ideal for use in domestic and commercial applications with pumps fitted with a pressure controller.

- Automatic switchover from rainwater storage tank to mains water supply
- Hydraulic design, with no electrical components
- Low lead brass construction: Withstands harsh weather
- Meets NCC Lead Free requirements
- Suitable as retrofit or upgrade option for other changeover devices
- WaterMark Approved for use with potable water. WMTS 477: 2016 (LN: 021636)

PART No. 7575029
WATERBOY™ HYDRO SWITCH™
RAINS TO MAINS
CHANGEOVER VALVE

Application & Warranty

Compatible Products when connected to Waterboy™ 3kW Controller (Part No. 7575372)

Part No.	Pump Model
7575101	40L Waterboy™ Jet Pump
7575100	60L Waterboy™ Jet Pump
