BERNZOMATIC

FOR USE WITH PORTABLE
PROPANE APPLIANCES & TORCHES

Distributed by **BROMIC**

Use only with appliances designed for propane gas.
Read and follow important safety warnings on side label.

⚠ DANGER

EXTREMELY FLAMMABLE • FIRE/
EXPLOSION HAZARD • CONTENTS UNDER
PRESSURE • CARBON MONOXIDE HAZARD

NET WEIGHT 16 oz. / 453g (1lb.)

P

ALL-PURPOSE PROPANE

DANGER: Extremely flammable gas. Keep away from heat, sparks or flame. No smoking. Eliminate all ignition sources if safe to do so. Leaking gas fire: Do not extinguish, unless leak can be stopped safely. Do not expose to temperatures above 120°F (49°C). Do not put on trains or passenger aircraft. Protect from sunlight. Store in well-ventilated place. **Intentional misuse by deliberate concentrated inhalation may cause injury or death.**

WARNING: Contains gas under pressure; may explode if heated. Failure to comply with these warnings and instructions may result in an explosion or fire that may cause property damage, personal injury or death.

BEFORE USE 1. Check cylinder and torch seals. Never use with damaged or missing seals. Discard cylinder if dirt or rust particles are in valve area. 2. Turn off torch. 3. Hold cylinder upright while attaching torch. 4. Attach cylinder outdoors away from pilot lights, flames, sparks, and other ignition sources. They can ignite leaking gas. 5. Hand tighten only. Never use tools to tighten. Over-tightening can damage seals. 6. Check for leaks. Put soapy

DOT-39 NRC 232/290 M1003

water on connections. Look for bubbles. Listen for hiss of escaping gas. Feel for extreme cold. Smell for rotten egg odor. Do not use if leaking. 7. Read and follow torch instructions.

DURING USE 1. Use upright to prevent flare-ups or flashes. Never drop or throw cylinder. 2. If torch sputters or flares up, turn cylinder upright and turn off torch. Vent area to remove unburned gas. Slowly turn on. After hearing slight hiss, re-light. 3. Never use near pilot lights, flames, sparks, and other ignition sources. They can ignite leaking gas.

AFTER USE 1. Turn off torch. Let cool. 2. Detach torch when not in use. 3. Detach outdoors away from pilot lights, flames, sparks, and other ignition sources. They can ignite leaking gas. 4. Replace cap to keep valve clean.

CARBON MONOXIDE HAZARD Burning propane gas makes Carbon Monoxide (CO). CO is invisible, has no smell and can kill you. Burning propane gas in a tent, camper, van or other enclosed area can be dangerous. 1. Use only in well ventilated areas. If you experience headache, drowsiness, or nausea, turn unit off and get fresh air quickly. 2. Never use where people are sleeping. 3. Follow appliance instructions for proper use.
