

PART No. 8688100
BROMIC STAINLESS STEEL
TEST BUCKET

A useful tool for the plumbing trade, designed to test that water lines are sealed and free from leaks in either residential or commercial settings. They provide reliable pressure test results for leaks in water lines, so that the water mains can be switched back on with peace of mind that there won't be leaks or damage to the property.

Features

- For pressure-testing water systems to ensure they are sealed and free from leaks.
- Reliable and accurate test results
- Current pressure is shown on gauge for easy identification in case of loss of pressure
- Kit includes 1.5m long hose and 4 spare washers for the hose
- Pressure displayed in MPa, PSI and bar

Specifications

PRODUCT CODE	8688100
Testing Range	0-60 bar (860psi, 6Mpa)
Tank Capacity	12L
Flow	45 ml/stroke (web says 2620120-1?)
Connections	1/2" BSP
Valve Material	Brass
Tank Material	304 Stainless Steel
Handle	Solid Steel
Hose	1.5m length high pressure hose
