

# FLEXPRO WATER HOSE

## Kink Free

### Features

The FlexPro™ PE-RT ACB Water Hose combines next-generation materials with precision construction, creating a hose that's flexible, durable, and built to outperform metal-reinforced alternatives across every measure of safety and reliability.

- Reliable performance in both residential and commercial installations.
- Long service life with zero risk of internal corrosion or chemical degradation
- Safer and faster installations, ideal for professional plumbers demanding efficiency.
- Environmentally stable materials with resistance to temperature cycling and UV exposure.
- Burst Proof, Anti-Corrosion & Kink Free water hose

### Specifications

PRODUCT CODES	8WRB0225	8WRB0300	8WRB0450	8WRB0600
Barcode / GTIN	9320688427236	9320688427243	9320688427250	9320688427267
Hose Length (mm)	225mm	300mm	450mm	600mm
Application	Residential and commercial hot and cold water applications.			
Warranty	10 Years			
Diameter(mm)	8mm			
Watermark Certified	AS 3499			
Max. Working Pressure	1400 kPa			
Max. Heated Water / Working Temperature (°C)	90°C @ 1400 kPa			
Max. Cold Water Supplies	1400 kPa			
Water Hose Class	Class 2			
Temperature Range, °C	5°C to 90°C ([H] High Temperature)			
Brands	Bromic			
Fuel Type	Potable/drinking water			
Material	Nylon anti-corrosion braiding (ACB)			
Thread Size	1/2"			
Connector	F			
Inner Core	PE-RT
