

Part No. 7575134-RTM

WATERBOY™ HYDRO SWITCH 800W SUBMERSIBLE PUMP WITH INTERGRATED CONTROLLER & RTM VALVE

Features

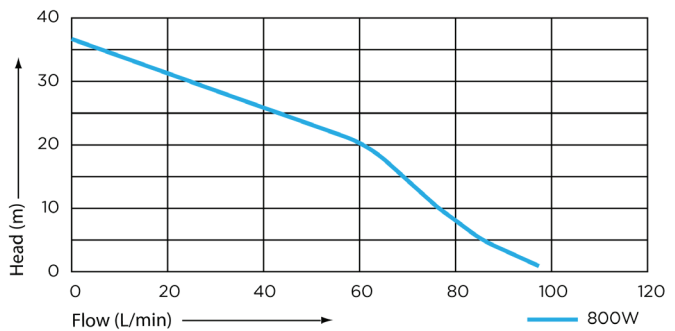

The Bromic Waterboy™ Hydro Switch 800W submersible pump with integrated controller and RTM Valve is a complete solution for domestic pressure systems and garden irrigation. The integrated controller automatically starts and stops the pump based on demand, eliminating the need for external pump controllers for simpler installation and operation. Includes the Hydro Switch™ Rain to Mains changeover valve (7575029) for automatic switching between rainwater storage tanks and mains water supply.

- Quiet operation
- 2.2 bar cut-in pressure
- Auto restart after power outage
- Dry-run protection
- Auto restart check after dry-run protection
- Electrical safety approval to GMA-514285-EA
- Tested to Drinking Water Standard - AS/NZS 4020
- Includes Hydro Switch™ automatic changeover valve, WaterMark Approved for use with potable water. WMTS 477: 2016 (LN: 021636)
